MIRROR 2008 CABERNET SAUVIGNON

The consistency of our vineyard sources allow us to maintain the quality and profile of our wines every year. A beautiful array of roses, blackberry blossoms, tobacco, and cocoa jump out of the glass leading to the full attack on the palate. The senses from the aromas are further supported by the elegant entry and fullness into the palate. A core of dark berry fruits with dried raspberries bring about the long and lasting finish of fruits. Keeping the tannins round and full and supported by the nice oak components of vanilla and spice.

The stage was set for the 2008 growing season by less than normal rainfall in the winter of 2007/ 2008. Lack of precipitation created drought conditions for the spring, summer and early winter of 2008. Diminished late winter rains further reduced field moisture levels at the beginning of the growing season in the first three months of 2008. Field moisture's were hard to manage throughout the year but the growing conditions leading up to harvest were relatively normal and the overall quality was great for 2008.

We are very excited about our 2008 Mirror Cabernet and look forward to sharing it with you.
