MIRROR 2009 SAUVIGNON BLANC

The inaugural Mirror Sauvignon Blanc captures the true flavors and regional character of Napa Valley. We sourced the fruit from Aetna Springs in Pope Valley. This musque clone was whole cluster processed and pressed. The wine then went through a long, cold stainless steel fermentation. This process helps to retain the fresh fruit aromas and flavors of optimally harvested Sauvignon Blanc.

The wine has a brilliant medium straw color. The aromas of citrus blossoms, ripe summer peaches, fresh pineapple and traces of fresh baked bread in the glass. The palate delivers bright flavors of peaches and tropical fruit accented by the bright acidity and refreshing flavors of lemon zest and oranges. The lively acid refreshes and leaves a long lasting finish on the palate.

We harvested in early September. The fermentation of this 100% Sauvignon Blanc was complemented with the lees aging in neutral French oak barrels. The total production was 88 cases.
